ALERT - HOTEL SCAMS

We are aware of companies offering housing/hotel services that are contacting exhibitors, attempting to sell 'discounted' hotel rooms on behalf of the event organisers.

If you receive a call of this nature we advise that you treat it as suspicious, hang up, and contact the organisers directly.

If you received an email from Global Housing Services, please delete the email. ERTICO-ITS Europe does not have any affiliation with this company..

The official hotel options will be clearly listed here above and on the event website.

CARBON OFFSET PROJECTS

Your carbon offset projects are producing renewable electricity, supporting low carbon economies of the future.

WIND IN MAHARASHTRA, INDIA

This wind turbine project converts wind energy into renewable electricity, selling the power generated to the state grid, saving some 135,000 tonnes of CO2 annually. Importantly, they displace the need for electricity generated by fossil-fuel powered plants, in line with India's renewable energy goals. The project developer has also invested in local healthcare, raising awareness of the importance of donating blood, and organising blood donation camps in local communities.

For more information on the portfolio of projects you will be supporting through your carbon offset participation, [click here](#).
